LONDON, W.1.

May 19th. 1932

Monsieur Eugene Humbert

La Grande Reforme

14 Rue de la Duee PARIS XXe

Dear Sir,

Dr. Marie Stopes wishes me to write and thank you for your letter. She appreciates your work and the kind things you say about her. She will insert the notice you send in our Birth Control News. We shall have pleasure in sending you two copies every month in future.

We ourselves do not deal at all in male preservatives, all our work being on the lines of feminine contraceptives and we do not recommend condoms except in cases of illness or some temporary necessity. Dr. Stopes sympathises very much with you in France at the present time and hopes that more enlightened days will soon arrive. Meanwhile we greet you and wish you all success in your work for humanity.

Yours sincerely
George Bedborough
GEORGE BEDBOROUGH
(Organising Secretary)
